The Dock Doctors[®] Waterfront Specialists

Design Whether your project is complex or straight-forward, our sales and design team will evaluate your individual site and discuss your waterfront needs. *We offer in-house and on-site consulting, conceptual layouts, and designs.*

Factory Direct... From Our Door to Yours!

Founded in 1984, we have over 30 years experience and have installed thousands of docks throughout the entire Northeast. Our extensive range of knowledge and expertise allows us to offer a very diverse - and often innovative - product line to meet the challenges of site conditions and unique situations.

Manufacture All of our products are manufactured in our state-of-the-art facility in Ferrisburgh, Vermont. We offer both readily available stock products as well as custom (see separate custom catalog) designs for your specific needs. We strive to source all of our raw materials from within North America.

Start planning your waterfront project today!

Please allow additional order time for powder coated stairs.

¹ Accommodates elevation from deck surface to lake bed.

Shallow
Water Stairs

shown above with optional powder coated finish (special order)

NEW PRODUCTS

Lower Access Platform for swimming & kayaking

Stationary leg docks are often quite a distance above the water's surface, making accessing the water for swimming or kayaking very difficult. This lower access platform is designed to provide you with a safe transition to the water. If the distance is too far to step from your dock to the platform, utilize one of our aluminum ladders on the dock to safely transition to the lower platform.

- Designed to provide lower access for swimming or using your paddle crafts
- Add our aluminum ladder (see page 8) on your dock to transition down to the platform if needed
- Overall frame size is 15" wide × 9' 3" long (designed to be used alongside any 8–10' long dock with 1 ½" support pipes).
- 5" tall aluminum frame with Sure-Step® flow-thru, anti-slip decking
- Adjustable sleeves that slide over 1 ½" support pipes

Lower Access Platform: \$695

Disclaimer: To avoid tipping, the dockside platform must be installed on a leg dock system rather than a single dock as shown. Please contact us for more details.

Boarding Handle

Made with marine-grade aluminum, the boarding handle provides a safe handhold when boarding your boat. Mounts available for any **Dock Doctors** dock systems or a universal mount to attach to any dock frame. Height from mount to top of handle is 48".

Boarding Handle: \$ 89

Track Mount (as shown): \$ 59

please call for pricing on other mount styles.

Angled Ladder NEW

One-piece welded aluminum angled ladder with aluminum non-slip treads.

Please Note: the photo is our prototype. Please call or check our website for more information on availability, sizes and pricing.

Shipping Available

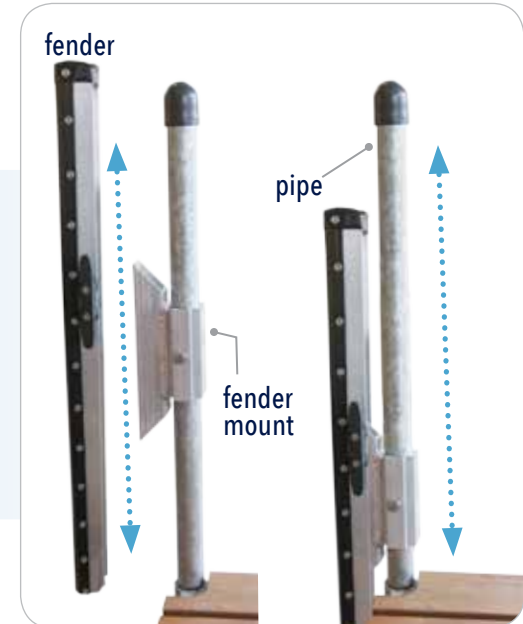

Protect your boat and dock with our adjustable vertical fenders

(available for all dock systems)

Our unique vertical fender design is adjustable on the mount which is often necessary due to lake level and boat style. Add a fender cleat kit (see **G** below right) for a complete securing system for your boat.

Our pipe-mounted vertical fenders offer two forms of adjustment. They adjust up and down on the mount and up and down on the pipe.

Vertical Fenders				
Fender Style	Mounting Style	3' long	4' long	
<i>For all Aluminum Leg & Wheel Docks & Steel Truss Leg Docks with 1 1/2" pipe:</i>

<i>For all Mega Leg Docks with 3" pipe or Custom Articulating Docks with 2" pipe:</i>				
D Fender	2" or 3" pipe mount	\$ 165	\$ 187	
<i>For all Aluminum "Track-Frame" Floating Docks:</i>				
E Fender (shown on p. 37)	Track Mounted	\$ 145	\$ 167	
<i>For all Aluminum "Track-Frame" Floating Docks - includes spud mount:</i>				
F Fender (shown on p. 37)	Spud Anchor Mounted	\$ 315	\$ 338	

G Fender Cleat Kit

Designed to be used with the 3' or 4' fenders listed to the left. Includes (2) cleats per kit that bolt onto the fender mount.

\$ 36.⁹⁵ / kit

Fender Cleat Kit
2 cleats included per kit

A Edge Fender

High quality, non-marring black edge fender. Available for all aluminum "track-frame" floating docks, and custom galvanized steel floating dock systems.

\$ 6.⁵⁰ per foot (material only, not installed, not including fasteners)

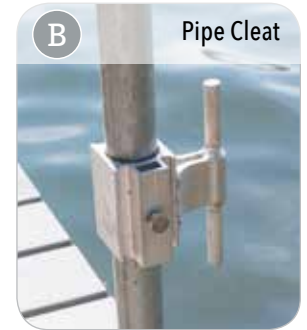

\$ 9.⁷⁵ per foot (installed with stainless steel fasteners*)

*installation available on new dock orders only

Cleats

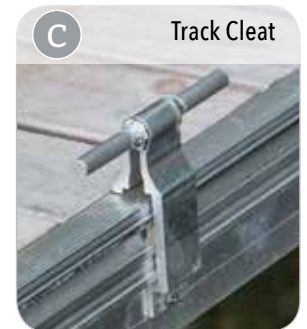

B Pipe Cleat (for 1 1/2" pipe)

A single cleat mounted to a sleeve that slides over the leg pipe. Available for all leg & wheel docks except the mega leg & wheel docks. \$ 29.⁷⁹ each

C Track Cleat

Designed to slide along the track of our floating aluminum track dock systems (see pp 38-40). \$ 18.⁹⁹ each

D Taylor Made Mooring Whips

Mooring whips with fixed angle base. Two-piece kit, will need to be epoxied (epoxy included with kit). **Recommended for low profile boats such as bass boats, runabouts and sport boats.**

MW120: \$ 521

MW140: \$ 591

(for 18' - 23' boats / 2,500-5,000 lbs.)

(for 24' - 28' boats / 5,000-10,000 lbs.)

Disclaimer: Some docking conditions may be too rugged for this product.

E Dock Doctors Mooring Whip Dock Mounts

Required for docks with removable decking. \$ 129

for Taylor Made mooring whip models listed above only

Truss frame mount

Track frame mount

Sliding Boarding Step

Dock mounted sliding boat boarding step that bridges the gap between your dock and your boat.

- Boarding Step travels 20" depending on mounting location
- Smooth operation slides back & forth
- Includes safety handrail that can mount to either side of platform
- Sure-Step® slip resistant polypropylene decking
- Welded aluminum 5" high frame with mounting bracket
- Vinyl edge fender to protect boat
- Securely attaches to your existing dock - not a free-standing unit
- Weight capacity of unit is 300 lbs. (Note: dock structure & condition will affect capacity of unit)

Ideal for pets too!

Shipping Available

Sliding Boarding Step

Style	Price
Sliding Boarding Step	\$ 849

Prices include boarding handle. Platform is a welded, one-piece unit. Mounting to dock system may require additional reinforcement to dock for secure attachment.

NEW PRODUCT Boarding Ramp

This product is designed to create a smooth transition over the space between your dock and the swim platform on your boat. Simply flip back over onto dock when not being used or lift out of bracket to stow out of the way. Features aluminum frame with Sure-Step® anti-slip decking and vinyl strip on the underside where it rests on the swim platform.

Please note: the photos are our prototype - please call or check our website for more information on availability, sizes and pricing.

Left: Boarding ramp in boarding position.

Above: Boarding ramp in storage position.

C

C Skirt Boards

Used to camouflage the truss frame to give the appearance of a wooden dock system. *Please inquire for further details.*

skirt boards

Skirt boards for our galvanized steel truss dock systems provide the aesthetic appearance of a wooden dock.

D Flag Poles

Add beauty to your waterfront property with a telescoping flagpole. These poles have no ropes, chains or pulleys so you do not have to worry about knots and tangles and they are virtually noise-free.

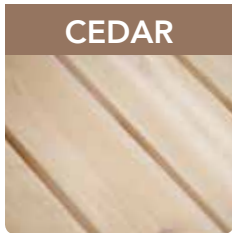

Each section of the pole raises and lowers easily. 16' tall telescoping aluminum flagpole includes a 3" gold aluminum ball ornament, a double flag harness to fly two flags or fly at half mast, a 3' x 5' nylon USA flag with embroidered stars and sewn stripes. *Other pole heights available as special order.*

D5 Pole mount for docks with 1 ½" leg pipe		\$ 80

Decking Choices

CEDAR

CEDAR Natural, cost effective decking option that is naturally resistant to decay and insects. Red cedar will weather to a soft, silvery gray. Cons: Over time will absorb moisture and weather unless sealed with a preserving stain.

ALUMINUM

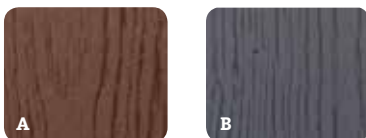

ALUMINUM Powder-coated finish eliminates glare from the aluminum. Resists the growth of mold and mildew and won't rust, rot, split or stain. Non-slip, rigid, surface that is low-maintenance and is cool to the touch. Cons: Can sound metallic when you walk on it – especially on our docks with removable panels.

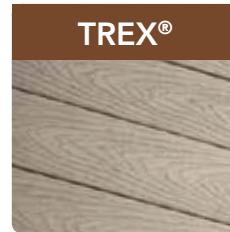

NYLODECK®

NYLODECK® Environmentally-friendly NyloDeck® is made using 100% recycled carpet fiber and contains no wood or PVC. NyloDeck® is the only 1 inch composite deck board rated to span joists at 24 inches on center. It is twice as strong as other leading composite decking materials. Lightweight and easy to work with and is impervious to moisture, mold, mildew and insects. Cons: Not a natural wood.

NyloDeck® color choices

(A) Mountain Mocha, (B) Harbor Gray

TREX®

TREX® Extremely weather resistant, Trex® is the leader in the industry for composite decking and will maintain its color and beauty for years. Recommended for direct screwed applications, 16" on center. Cons: The heaviest of all of our decking options. Due to weight, tends to hold the most heat on hot summer days. Trex® may have a sagging/wavy appearance over time.

BY SPECIAL ORDER ONLY

Trex® Standard color choices

Readily available: (A) Gravel Path, (B) Rope Swing, (C) Fire Pit
Longer lead times: (D) Vintage Lantern, (E) Tree House

Trex® Transcends premium colors

(F) Spiced Rum, (G) Lava Rock, (H) Tiki Torch

IPE

IPE Extremely hard, very durable and naturally resistant to rot and insects. Ipe's strong, resilient properties make it an excellent material choice for marine applications. Cons: It is a natural wood, therefore there will be inconsistencies with regard to color, weathering and texture. Due to the density of Ipe, it is heavy and hard to drill and cut, therefore more labor intensive than working with other decking materials.

SURE-STEP®

SURE-STEP® Slip-resistant, polypropylene surface that allows water and sunlight through to help conserve the underwater ecosystem. Preferred option for dock structures that are situated close to the water so waves will pass through the decking, adding minimal resistance. (Available on our aluminum docks and swim floats). Cons: Only available in certain dimensions, so may not be a viable option for many applications.

Easy Hassle Free Mounting
No Wiring Required

Solar Dock Post Lites

\$ 55.⁹⁵
package of 2

- Fits standard pipes (1 1/2" & 2" ID in size)
- 6" H x 3.5" diameter (UV stabilized polycarbonate)
- (1) Super bright LED (12 Lumens)
- Automatic night activation
- Fully sealed electronic circuit board
- Powerful solar panel
- Lasts 18+ hours on a full charge
- Replaceable 1.2v NiMh battery
- Two (2) post lites in each package

1 3/8" Dock Dots

The smallest solar lights you have ever seen! Easy to install in minutes with a quick 1 3/8" drill bit or hole saw.

Available in:
white/blue/green/amber/red
\$ 55.⁹⁵
package of 4

Deck Lights

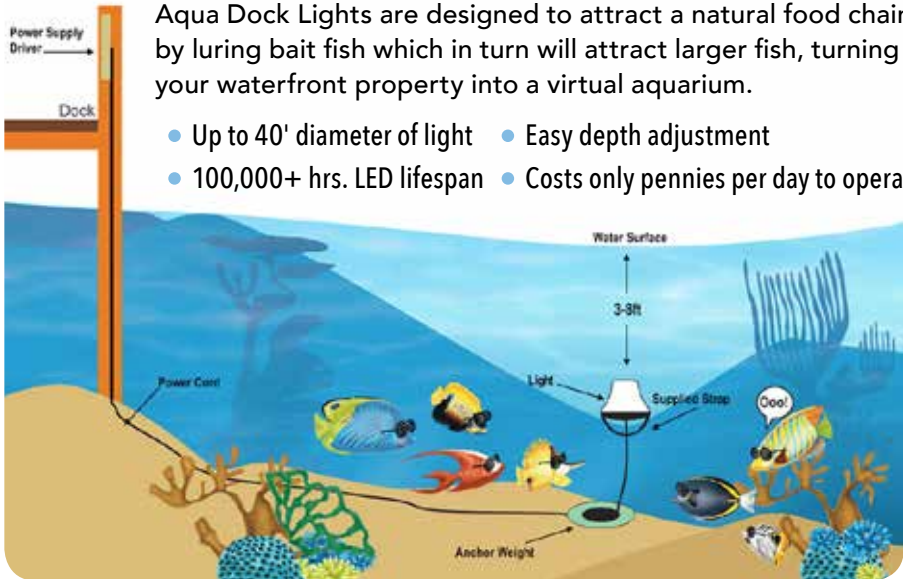

Industrial strength solar powered dock light made from marine grade anodized aluminum for superior protection in harsh marine environments.

Available with white LEDs only
\$ 39.⁹⁵
each

Aqua Dock Lights

Aqua Dock Lights are designed to attract a natural food chain by luring bait fish which in turn will attract larger fish, turning your waterfront property into a virtual aquarium.

- Up to 40' diameter of light
- Easy depth adjustment
- 100,000+ hrs. LED lifespan
- Costs only pennies per day to operate

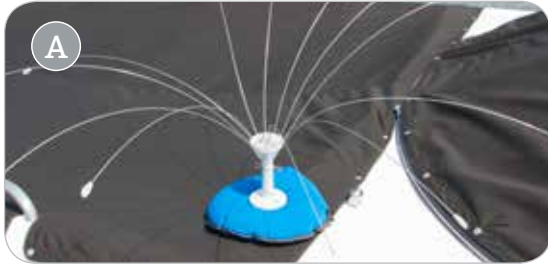

Apollo underwater LED system includes:

- (1) Apollo light & AC to DC power supply
- (1) 3 lb. weight & weight strap
- 40' power cord (longer lengths available)
- Choice of blue, green, orange, red or white color

Model #AD-APOLLO **\$ 512.⁴⁹**

Apollo model is recommended for water depths of 3' - 5'.
For depths over 5 feet, please inquire about other models & options available.

BIRD•B•GONE Inc. **Sea Gull Eliminators**

A Bird-B-Gone® Bird Spider 360°

The Bird-B-Gone's spider's spinning motion is effective at deterring birds from landing on your boat, swim raft or dock. Stainless steel arms with scuff-preventing polycarbonate tips move with the breeze. *Mount permanently (screws included) or use an optional rail, bimini or sandbag mount.*

Model #MMBS400SPN (4' diameter) **\$ 49.99**

Model #MMBS800SPN (8' diameter) **\$ 59.99**

B Bird-B-Gone® 360° Repellent

6' diameter, wind driven rotator keeps birds from roosting on your boat, swim raft or dock. Includes standard mounting block (screws included). *Optional rail, bimini or portable sandbag mounts sold separately.*

Model #MMRPL360 **\$47.99**

Rail Mount

For mounting to boat railing 1" to 1.86" in size and other surfaces that will accept a C-clamp.

Model #MMRLMNT **\$22.99**

Sandbag Base

Attaches directly to either style repeller and comes with all the necessary hardware. Has eyelets around outer ring for extra security. *Weighs 8 lbs.*

Model #MMBSBB-SB **\$41.99**

Boat Base

Used to secure either style bird repellents to masts, spreaders and other areas. Comes with all the necessary hardware.

Model #MMBSBB2 **\$9.99**

Dock Pro® Dock Cart

The Dock Pro dock cart is simply the easiest way to carry all your gear to your boat. Features a spacious 7 cu. ft. (47" L x 23" W x 13" D) heavy wall roto-molded poly-tub that will not rust or rot. Zinc coated corrosion resistant hardware used throughout. Plastic rim wheels with roller bearings will stand up to the harshest marine environment.

plastic rim wheels will stand up to the harshest marine environment

Item #TAY1060 **\$ 279.99**
 Dock cart with solid wheels (300 lb. capacity)

A Adjustment Kit

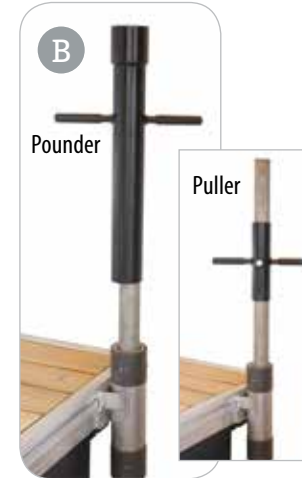

Adjust the level of your dock with this kit that slides over the 1 1/2" leg pipe. Available for all leg & wheel docks with 1 1/2" pipe. Sold as a pair (winch with sleeve and hook).

\$ 245 / pair

B Spud Puller & Pounder Kit

This (2) piece system aids in the installation and removal of spud pole anchors for our floating dock systems.

2" puller/pounder kit:
\$ 249

www.thedockdoctors.com/boatlift-removal

Boat Lift Helper

The Boat Lift Helper is made of the same tough material that the military uses to raise sunken equipment from the ocean floor. The heavy-duty air-lift-bags will raise your boat lift up off the lake bottom for simple positioning right from your dock. No need to muscle your boat lift through muddy, sandy, rocky, or weedy lake bottoms.

Mid-season when lake water levels change, simply re-inflate the Boat Lift Helper's powerful air-lift-bags to move your boat lift into a new position. No hassles or need to re-attach wheels and no special air compressors are required.

Boatlift Beam Width	Recommended Kit	Price
108"	7' bag kit	\$ 1,545

www.thedockdoctors.com/boatlift-removal

Our standard duty aluminum frame leg and wheel docks are designed for protected sites with minimal wave action, feature an exceptionally strong aluminum frame. These strong yet lightweight docks are easy to assemble and can be installed by one person.

Complete our **site survey** on our website and we will send you a free quote and conceptual layout customized to your property.
www.thedockdoctors.com/site-survey

Lake Groton, Groton, VT

Standard Duty Aluminum Leg & Wheel Docks

- Exceptionally strong aluminum frame
- Support stanchions built into the frame, for an obstruction-free dock edge
- Removable decking in cedar, aluminum, NyloDeck® composite® - or attached Sure-Step® decking
- Optional powder-coated frame

***EASY** one person install*

Our innovative connector clips and lightweight sections allow for one person to easily connect sections together and install the dock system.

Wheel docks easily roll in and out as the water fluctuates during the season.

Standard duty aluminum wheel docks with cedar decking and optional dock mounted roller.

*Dock mounted roller
(see page 13)*

See pp. 48-52 for more information on our small craft launch systems.

*Standard duty aluminum leg dock with Sure-Step® decking and our freestanding launch port system
(see page 49).*

Our lightweight **aluminum portable stairs** are rigid and adjustable, with features designed to accommodate a variety of waterfront applications. Offering a lifetime of virtually maintenance free features, these quality aluminum stairs are an economical solution for waterfront access and ideal for replacing your old wooden steps.

Aluminum Stair Features

- Readily available in lengths up to 18' 9"
- Adjustable rise & run (27 to 44 degrees) to accommodate your site
- Custom fabrication available for specific applications & lengths
- Lightweight & easy to carry for a two-person installation
- Non-skid, 28" wide stair treads
- Marine grade aluminum extrusions with stainless steel fasteners
- Rounded aluminum handrails on both sides
- Optional adjustable footpads for base of stairs
- Includes mounting bracket
(designed for easy seasonal installation & removal of stairs)

Non-skid, 28" wide
stair treads

Stair platform for top and/or bottom of stairs.

Aluminum Stairs

All stairs are 28" wide

All stairs can be assembled to fit any distance between the minimum and maximum rise.

Angled ladder - available in marine-grade aluminum or powder coated finish.

Move your rowing dock with ease by land or water with our optional wheel and tongue assembly or motor mount.

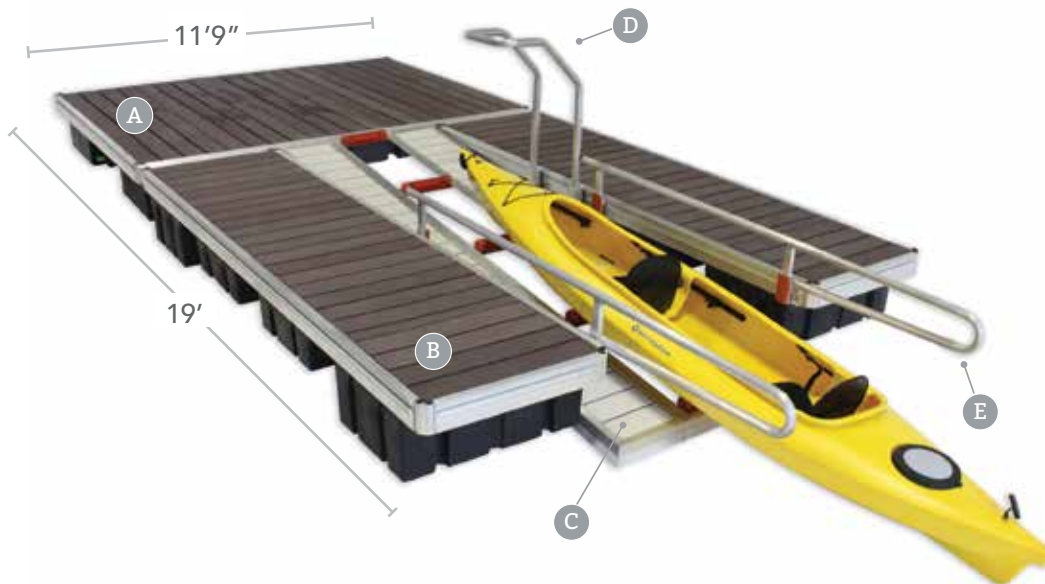

Our aluminum **Dock & Launch Systems** offer a modular design and multiple layout options for both residential and commercial applications. Use as an independent launch system, or as part of a complete dock system to accommodate your other waterfront activities, including swimming, lounging and boating.

Residential Dock & Launch System

- Foam filled black polyethylene floats
- Non-skid platform & non-marring Stoltz® rollers
- Boarding handle & grab & launch rails
- Can be used in conjunction with any of our floating dock systems
- 5" tall aluminum track frame
- Choose cedar or NyloDeck® composite decking on main platform & dock fingers (decking is secured directly to the 5" aluminum frame)
- Non-skid Sure-Step® surface on launch ramp (C)

Dock & Launch System Medium Duty Aluminum

Featuring a 5" tall aluminum frame, and 19' x 11'9" overall size, our typical medium duty dock & launch system includes:

- (A) (1) main frame (7' x 11'9") with cedar decking
- (B) (2) dock fingers (3'6" x 12') with cedar decking
- (C) Launch ramp (4' x 12') with built in rollers & Sure-Step® decking
- (D) Boarding handle ● (E) Grab & launch rails

*Site conditions, anchoring & decking selection are necessary to determine final pricing. Please call for a free quote on your project.

***as low as \$ 9,720**

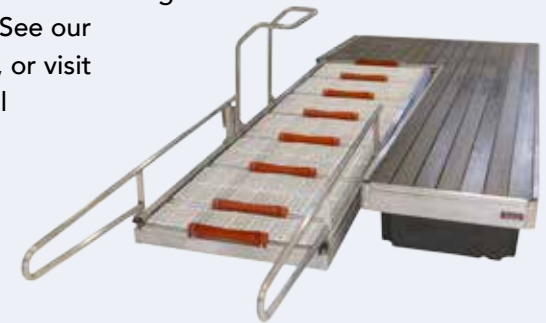

Commercial Launch Systems

See pages 50–51 in our *CUSTOM* catalog for more details.

Floating add on kayak launch

Ideal to add onto existing municipal or commercial floating dock systems that want to upgrade to provide a safer launching experience for paddlers. See our *Paddle Products* catalog, or visit our website for additional information on this product.

For more information on our launch products, visit our website at: www.thedockdoctors.com/launch-docks

Freestanding Launch Port System

- Ideal for controlled bodies of water with minimal fluctuation
- Non-marring Stoltz® rollers
- Variety of layouts available by adding more leg dock sections to accommodate individual sites
- Optional grab & launch rails offer more control for gliding on and off the launch platform
- See our *Paddle Products* catalog or visit our website for more details

Easy-access boarding handle

Grab & launch rails

Freestanding Launch Port Standard Duty Aluminum

*Ideal for boats from 6,000 to 32,000 lbs, the **Ultimate vertical boat lift** is custom manufactured with industrial quality hot-dipped galvanized steel. This lift can be used in shallow and deep water applications, rough water, and in fluctuating water levels. The 12,000 lb. and larger models are modular for ease of seasonal handling.*

Please note: boat lift shown should be raised higher so entire boat and cradle are out of the water to achieve optimum safety for the boat.

Ultimate VL Boat Lift – by The Dock Doctors

- 6,000 lb. to 32,000 lb. capacity
- 9 ft. standard lift height (other heights available)
- Great for shallow or deep water applications
- High lift for rough water & fluctuating water levels
- Portable/seasonal if necessary - 12,000 lb. & larger models fabricated in modular sections for ease of seasonal handling
- Industrial quality hot dipped galvanized steel construction, stainless steel cables & galvanized fasteners
- Adaptable to boathouses for use with permanent docks
- Custom heights, widths & lengths are available to accommodate your boat & location

12,000 lb. Ultimate vertical boat lift with custom canopy.

12,000 lb. capacity Ultimate vertical boat lift with optional powder coating.

Bolton Landing, NY

Above: 32,000 lb. capacity Ultimate Lift.
Right: Modular section of the above boat lift being loaded for delivery. See information on our delivery services on page 3.

Queensbury, NY

12,000 lb. capacity Ultimate Lift with oil bath drive upgrade.

Sliding Boarding Step: Bridges the gap from your dock to your boat

Remove the gap to transition safely to/from your boat. Securely attaches to your existing dock (see page 12 in the dock accessories section of this catalog).

Dock Doctors® Ultimate Vertical Boat Lifts

Custom sizes are available.

*Prices above include Gem remote control, sealed bearing and grooved cable winders, AC drives, (4) 7' vertical guide poles with PVC sleeves, (4) wheel mounts, (4) 24" adjustable legs and heavy duty carpeted bunks. Optional oil bath drives and full length guide-ons are available. Please inquire for pricing.

We can deliver and install your boat lift.

See page 3 for delivery information.

Boathouse lifts are custom built to be installed in new or existing boathouses. These lifts are designed to accommodate various boat styles, capacities, and in some cases aesthetic appearance.

- Freestanding units for boathouses without structural integrity to support your boat
- Bunk style cradle system with pull-out tubes for winter storage
- Sling style for shallow water applications

Sling style boathouse lifts are ideal for shallow water applications.

Occasionally, protecting your boat requires a product that is designed to fit your individual needs. We can design, fabricate, and install custom canopies, boat lifts and much more to accommodate unique situations. Please contact us for a free quote and conceptual layout.

Above: The Dock Doctors Ultimate Lift (see pages 60-63) customized to attach to the shore with galvanized lift arms which allow it to be raised for winter storage.

Custom powder coated uprights for use with a standard RGC® canopy.

Installation & Removal Services

Let the Waterfront Specialists do it for you!

We provide service to all areas in the Northeast!

*Living in the Northeast often has the added responsibility of removing and installing your dock system every year. Take the worry and hassle away with The Dock Doctors® **seasonal service plan**, and have the assurance that your dock system will be taken care of with the utmost quality and safety in mind.*
