Commercial Launch Systems

See pages 51 in our *CUSTOM* catalog or visit our website for more details on our commercial launch systems.

Floating Kayak Launch (shown left)

Can be used as an independent launch, as a complete floating dock system, integrated into existing systems, or in conjunction with any of our floating dock systems.

Floating "add-on"

Kayak Launch (shown right)

Ideal to add onto existing municipal or commercial floating dock systems.

Our innovative **Kayak Lift & Launch systems** provide a smooth transition for you and your paddle craft to and from the water. Available with built-in ladder to accommodate seawalls or permanent docks or without the ladder for docks that are only a minimal distance off the water.

- Ladder Lift mounts to seawalls or permanent docks and have a lifting height of 6' (standard model) or 8' (tall model)
- Manual winch to raise and lower the platform (electric winch available for ladder models KLL-100 and KLL-400)
- Units without the ladder option offer 30" of lift height
- All models include boarding handle with built-in paddle hooks
- Sure-Step® UV resistant decking on platform
- Adjustable aluminum & vinyl bunks
- 100 lb. capacity lifts available with or without the ladder
- 400 lb. capacity lift available with ladder only

Left: Sure-Step® decking on platform. Adjustable aluminum & vinyl bunks accommodate all kayaks, canoes & paddle boards (not designed for Jet skis).

Shown Above: Model KLL-100 for crafts up to 100 lbs.

Our KLL-400 model (see **B** on page 49) accommodates larger crafts such as the Hobie Mirage® Tandem.

Kayak Ladder Lift & Launch

For sites with fluctuating water

Our Kayak Ladder Lift & Launch has a lifting height of 6' or 8' and mounts to seawalls or permanent docks. Includes manual winch, boarding handle, kayak leash and adjustable aluminum & vinyl bunks.
