#### PRICE INCREASE NOTICE

Since our catalogs were printed in January 2021, material suppliers are implementing 8% - 20% price increases. These increases are in many sectors of the commodity market from steel, aluminum, plastic, vinyl, lumber, and composite materials. We unfortunately can no longer absorb these increases and will need to implement a price increases on all stocked products. Prices for "order online" products on our website include the increase. Thank you for your understanding.
