

# Boathouses : Custom Designed

Our Boathouses are custom designed to your preferences in a variety of styles and configurations and often incorporate our heavy duty boathouse boat lifts. Our pile dock and crib dock systems typically serve as the boathouse foundation and are designed to support the boathouse and/or sundeck roof.

## Boathouses

- Open-sided, fully enclosed and sundeck-style boathouses
- Variety of railing styles, including rustic Adirondack, composite or stainless-steel cable rail
- Boathouse Upgrades and renovations to existing structures – specializing in foundation / dock replacements
- We can incorporate a traditional boat lift or a boathouse lift into your boathouse
- Call today for a free consultation and project estimate

*Open sided boathouse with peaked roof.*

**Upper Saranac Lake, NY**

*Peaked roof enclosed boathouse and Ipe decking.*

## Boathouse Foundations : Pile & Floating

Whether building a new boathouse or restoring an old boathouse, we offer a variety of options for Boathouse Foundations. Our permanent pile docks are ideal foundations for boathouses, and are custom designed for your site and specific requirements. We also offer floating boathouse foundations for fluctuating water levels.

*Above Left: Pile dock foundation complete and boathouse support structure with custom boathouse boat lifts in place. Our sectional barge (shown left) was critical for this site that has an extremely steep shoreline.*

*Above Right: Floating boathouse foundation with boathouse support structure being installed.*

## Pile Foundations for Boathouses

Our pile dock systems can be manufactured to support a boathouse and/or sundeck and are custom designed for your site.

## Floating Foundations for Boathouses

When a permanent support structure is not feasible due to fluctuating water levels, we custom design floating foundations & support structures for boathouses.
