Commercial Dock & Launch Systems

Our floating aluminum **Commercial Dock & Launch System** offers a modular design and multiple layout options. With optional transfer platform, ADA curbing and handrails, this system meets commercial and municipal quality standards. Can be used as an independent launch system or in conjunction with any of our floating dock systems.

Watch a video of these docks in use:
www.thedockdoctors.com/launch-dock

- Heavy-duty system meets commercial & municipal quality standards with a 7" universal track-style frame and composite or Ipe decking.
- Features boarding handle and grab and launch rails. Non-skid surface on the launch platform. Optional transfer station for wheelchair to craft access. Optional ADA curbing and rails.
- Designed with ease-of-use in mind to make transport and launching as easy as possible.
 - Non-skid surface on the launch platform
 - Boarding handle & grab & launch rails for easy entry and launching
- This commercial quality system can be used as an independent launch, as a complete floating dock system, integrated into existing systems, or in conjunction with any of our floating dock systems.
