Dock Doctors LLC
Waterfront Specialists

- Galvanized Steel Dock Systems
- Wave Attenuators
- Aluminum Dock Systems
- Kayak Launch Systems
- Rowing Docks
- Pile Supported Docks & Piers
- Wetland Walkways
- Gangways & Bridges
- Stair Systems

Commercial • Municipal • Industrial
Our services include:

- Design Specifications for Bids
- Project Estimates for Architects, Municipal & Consulting Engineers & Land Planners
- Conceptual Designs
- Waterfront Surveys
- Anchoring Layout & Design
- Wind / Wave Analysis

Over 30 years Design Experience

Founded in 1985, The Dock Doctors is among the largest and most diverse marine manufacturers in the Northeast. We offer a complete portfolio of commercial and industrial products including docks, fishing piers, kayak launching systems, wave attenuators, commercial stairs and ramps, gangways and walkways.

Our team of approximately 60 year-round employees includes designers, CAD specialists, project managers and highly skilled fabricators and installers. We will be your partner through the design, permitting, manufacturing and installation.

Our areas of expertise include:

- Commercial Marina & Municipal Waterfront Designs
- Steel & Aluminum Dock Manufacturing
- ADA Compliant Docks & Waterfront Access
- Innovative Anchoring Designs & Installation
- Kayak Launching Systems
- Commercial Stairs & Ramps
- Hillside Waterfront Access
- Installation Services

Using wave attenuators as part of your dock system provides additional slip space and increased revenue. Our galvanized steel wave attenuators are fabricated using a steel truss substructure and are designed for your site depending on the wind and wave exposure. Using our superior connection, anchoring and hinge systems, our wave attenuators are designed to withstand severe wave action.
Our gangways are fabricated using either galvanized steel or aluminum, and are designed to meet the needs of all types of sites. Our aluminum gangways are available in any length or width. We specialize in solutions for restrictive parameters in permitting, location, terrain and limited space. We can structure phased replacement floating dock systems to meet budgetary needs and growth potential.

Made in USA

Commercial municipal dock installed in phases Burlington Waterfront, VT

Public transient commercial floating dock anchored with truss style stiff arms mounted to concrete abutments on shore.

Floating Galvanized Steel Truss Docks

Albany Yacht Club, Rensselaer, NY

Mohawk River, Scotia, NY

Hudson River, Town of Bethlehem, NY

6 7
Aluminum Floating Docks for all your salt and freshwater commercial projects.

City of Hudson, Hudson, NY

Crown Point, NY

Saratoga Lake, NY

Schenectady, NY

5' x 80' ADA compliant gangway for NYSDEC public boat launch

Second Pond Boat Launch, Adirondacks, NY

Public launch on Mohawk River
Our floating aluminum Commercial Dock and Launch System can be used as an independent launch system or in conjunction with any floating dock system. With optional ADA curbing and handrails, this system meets commercial and municipal quality standards.
We are experienced in all phases of commercial waterfront construction, including pier revitalization projects, industrial platforms and historic preservation. We often work closely with land planners, engineers, contractors and architects.

Installation of an industrial access platform at a hydro-power plant on the Mohawk River (Note: water level was lowered to facilitate installation).

We served as the general contractor for the Bolton Landing Municipal Pier revitalization project.

Notes:
- Lagoon Manor Homeowners Association
- Bolton Landing, NY
- Rogers Memorial Park, Bolton Landing, NY
- Water level was lowered to facilitate installation.
Floating golf cart bridge located at a municipal golf course. Clifton Park, NY.

Bridge for parking lot access at Six Flags The Great Escape, Lake George, NY.

Commercial stairs for shore access at a children’s summer camp.

110’ long commercial stairs at Brookfield Hydro Power Plant, Cohoes, NY.

ADA access ramp transitioning from our permanent pile dock to the upper pier area.

Wetland Walkways / Commercial Ramps & Stairs
